Hi Frederick,

As Borromean is expanding rapidly, we have a couple of events, conferences, and meetings that we have to attend. Unfortunately, all of these events are in different cities and states and I do not think that renting a bus would be a good idea. Is it possible for you can find an airline that is perfect for all of our business trips? I have noted a couple of things that I would like you to look up.

1. Which airline has the longest and shortest average delay time of departure and arrival?
2. Which top 5 cities see the longest and shortest average departure delay time?
3. Which airline has the lowest chance of cancellation?
4. Which day of the week has the highest average departure delay?

Thank you so much again for your time and your hard work within these first two quarters of the year. By answering these questions, it will be able to let me plan the trips efficiently. Please let me know if you have any questions or concerns. Great work!

Best,

Raj
